## FIREWORK SAFETY TEST ANSWERS

1. Read the warning or caution label carefully and follow all directions.
2. Always buy from a reliable seller.
3. Always light outdoors away from combustible material, buildings and plants.
4. Water.
5. Light only one firework at a time.
6. Never try to re-light a firework.
7. No.
8. Wait for 15 to 20 minutes and then dump the firework in a bucket of water and let it soak.
9. If at all possible, don't store fireworks. If you have to store them, store them in a cool dry place and keep them out of the reach of children.
10. Soak them in a bucket of water before disposing of them in a trashcan.
11. Carry fireworks in their original bag or box.
12. No part of your body should be over the firework while lighting it.
13. Eye protection should be worn when lighting fireworks.
14. Illegal explosives are really dangerous and should never be used.
15. It is never safe to point or throw fireworks at other people or animals.
16. Ask a reliable seller or your local police or fire department.
17. Close adult supervision is always needed.
18. One. All other fireworks should be kept at a safe distance so they don't accidentally become lighted.
19. Except for sparklers, a punk should be used to light fireworks. A match or lighter is required for sparklers.
20. No. Have a designated lighter.
